One day last week we sat down for coffee and words of wisdom with a group of knowing gentlemen. Before our self-allotted 30 minutes had lapsed, we got up to leave. When asked why, the response was that agreeing with the comments of all four was not teaching us anything and it was also very, very scary. Thinking about it now and knowing who the four were, it is still frightening!

There is some good news from (about) our police department. Following a break-in last Friday night and the ensuing investigation of the event, the company management folks were heard commending the investigators for the professional way they "did their thing." It is good to know, that in spite all the turmoil in the Elba Police Dewere issued during the week: one for (6:01 p.m.); Rescue run to Bullard's the Bush and Reagan administrations, the contents of at least two of them to partment during recent years, we still have some professionals who can, and will, do the job they were hired and trained to do.

One evening last week we did some sweeping of the street in front of the office with a stable broom. A man who saw this later asked why some vote hungry politician wasn't doing that work. It prompt ed one nearby city council member, wanting re-election, to volunteer. But alas, the work was already done and no one can be sure if this candidate really wanted votes that badly.

Scam telephone calls crop up every month. Recently we heard of what is probably another one. A lady received a call from "Dennis", claiming to be disabled and wanting to sell household cleaning supplies. When the woman who received the call started asking questions, she reported that the caller hung up. Our feelings are that any ligit caller would welcome questions of their integrity. We urge our readers to be ultra wary of such phone calls.

The lingering danger

I am astounded when I read about the destructive force of the missiles we have as a part of our nation's defense.

The experts say that these missiles have a destructive capability 50 times greater than those atomic bombs used in World War II. However, all the dangerous devices of man put together cannot equal the danger of what is found in Hebrews 2:3, "How shall we escape, if we neglect so great a salvation; which at first began to be spoken by the Lord, and was confirmed unto

Neglect is what I call "the lingering danger". Monarchs have lost king-doms, the wealthy have lost fortunes, free men have lost their liberty, famiy men have lost their wives and children and foolish men have lost their

How does this dangerous thing take place? First of all, neglect may come through carelessness. When we are confronted with the claims of Jesus Christ many carelessly dismiss them as unimportant or insignificant. In reality, to turn your back on Jesus Christ as your only hope for salvation is to sign your eternal death warrant. Jesus Christ is man's only hope for this life and the life to come. He said in John 14:6, "I am the way, the truth, and the life. No man cometh to the Father except by me."

Secondly, neglect may come through casualness. What do I mean by that? Many today have become so familiar with the story of the gospel that 1996 at 3:00 p.m. Rev. A.R. Wilthat? Many today have become so familiar with the story of the gospel that when they hear it they treat it with a casualness which lulls one to sleep. I am amazed today how anyone can sleep through the greatest story that has ever been told! To many, though, the gospel of salvation has become a casual, commonplace thing which leads to neglect and to hell.

1996 at 3:00 p.m. Rev. A.R. Williams, Elba, pastor of Rocky Head MB Church, Elba, and Shiloh MB Church, Tarentum, AL, will be guest speaker. The Rocky Head MB Church Ensemble will render music.

Finally, the third way in which neglect is developed in an individual is through callousness. Many today have heard and rejected the gospel so many times until now their hearts are insensitive to the Spirit of God's convicting power. When a person's heart becomes callous neglect becomes areasy thing. To reject is to neglect.

Do not fall prey to this lingering danger of neglect.

By Ricky Mularz, Sports Editor

Everyone has heard the saying "This is going to hurt me more than it does you," but last week I lived the saying and can honestly say the hurt was much worse on my side than for my youngest daughter. I was home for lunch and told Melanie to be careful not to spill her drink, which of course was exactly what she did. I popped her on the arm and made her clean up her little mess; however, the tears from her eyes caused more wetness than the spill, and I left home feeling a little upset. My own feelings were hurt even more after getting back to work and hearing a message on my answering machine from Melanie that was left before I got home for lunch. In the message she told me to either call her or come home early, because she hadn't seen me or heard from me all morning and she missed me "really bad." Patience may be a virtue I never acquire, but I can assure you it will be one that I will try to use when dealing with my children as they learn from their mistakes.

IT'S ALL-STAR TIME FOR ELBA PLAYERS

It is now officially "All-Star Time" for the various baseball and softball players in Elba, and that means that the youngsters that made the teams will get to give up even more of their summer vacation to prepare for the upcoming tournaments. The girl's softball teams will take to the field this weekend for their tournaments and all three teams appear to have chances to win more than their share of games. The Babe Ruth teams will hit the field next week, and like the girls, should do well and grab some wins. The Dixie Minor and Dixie Youth teams won't play until after the 4th of July, but both teams look loaded to me, and have real shots at getting several wins. Last year the various All-Star teams found rough going and won only a total of seven games among the eight teams; however, this year the teams appear a little more experienced and more wins should be coming our way in all leagues.

PARENTS SHOULD SAY "THANKS" TO COACHES

I played ball growing up and have coached baseball and softball for many years, and realize that there are always coaches that aren't favorites among the players, parents and fans. I'd like for everyone to place those differences aside for at least a minute or two; however, and the next time you see one of the many coaches that took part this spring and summer tell them "Thanks" for giving their time to help our youngsters. The adults that coach open themselves up for criticism from everyone in the bleachers, but do what they do for the kids, and that in itself is reason enough to let'em know you appreciate what they did!

DEER HUNTERS UPSET ABOUT NEW DOG SEASON

Deer hunters across Alabama were more than a little upset last weekend when the State Conservation Department announced it had chopped two weeks off the season for hunters to use dogs. It had been highly publicized in recent months that some of the state's "big time" hunting clubs had been behind the push to limit the season, but I think the public that sees the trucks on the side of the rural roads while the dogs are running the deer had as much to do with the change as anything. The reason given was the trespassing of the dogs and hunters on private property; however, the hunters have their beliefs and so do many others. Just remember, rules have been changed before, and can be again.
